

Bob the builder!

Our topic this half term is Bob the builder!

In *Geography*, we will be learning about the U.K, it's countries and their capital cities. We will look at famous landmarks and human and physical features. In *D&T*, we will make a famous landmark, first using LEGO

Science

Different types of animals

In this unit, we will be learning about different types of animals. Children will look at the different animal groups, exploring similarities and differences. We will discuss the different features that animals have and how that allows them to fit into a particular group.

Computing

Year One will cover the 'We Are Storytellers' module through Switched On computing. Within **E-Safety**, they will learn about keeping personal information private.

Physical Education

Striking and field games

Aspire will introduce the children to basic Cricket, while in class PE, we will work on striking and field skills.

English

Year One will be using their phonics to complete Read, Write Inc writing tasks. This allows the children to build vocabulary, spelling and fluency to get them off to a good start with their writing. Our SPaG focus will be capital letters, full stops and writing simple sentences correctly.

Maths

In Maths, Year One will cover addition and subtraction, multiplication and division and money. They will build on previously used skills and tackle problem solving.

RE and PSHE

Relationships.

Important Dates

18.04.18 - Bob the builder dress up day

02.05.18 - Parent workshop LEGO build

25.02.18 - Den making
